STOP EXPLANATION AT ANY POINT PARENT ASKS YOU TO, GO TO PAGE 7, PARENT APPROVAL

This household's telephone number was randomly selected from all telephone numbers in the United States, and you and ***** were identified as eligible for our study evaluating a program designed to help families keep their adolescents from using tobacco and alcohol.

Almost all of the questions are the same as last time, and it will take about 15 minutes of your time and 15 minutes of *****'s time to complete the interviews. Everything that each of you tell us will be completely confidential. The questions ask about things like alcohol and tobacco use, family communication, and family rules. Adolescents don't have to use tobacco and alcohol to be in the study. No physical risks are expected from this study. Your participation is entirely voluntary and either of you can stop at anytime.

In about nine months we will ask you and your adolescent to complete one more similar follow-up interview.

Dr. Karl Bauman is the professor responsible for the study. I would like to give you his telephone number in case you want to talk with him. It is 919/966-3900.

I would like to remind you about some details of the study. STOP EXPLANATION AT ANY POINT ADOLESCENT ASKS AND GO TO ADOLESCENT INTERVIEW

Your telephone number was randomly selected from all telephone numbers in the United States for this study. We are evaluating a program designed to help families keep their adolescents from using alcohol and tobacco.

I will ask about things like alcohol and tobacco use, family communication, and family rules. Even if you have never used alcohol or tobacco the information you give could help prevent use by others. Your answers will not be revealed to your parent or to anyone outside of the study. It is important for you to have privacy when answering questions, so you may want to make sure no one else can hear the questions and answers. No physical risks are expected from this study. Your participation is entirely voluntary and you can stop at any time.

You would be asked to complete a similar interview again in about nine months.

Dr. Karl Bauman, the professor responsible for this study, can be reached at 919/966-3900 if you would like more information.

Do you have any questions? ANSWER ALL QUESTIONS TO YOUR SATISFACTION AND TO ADOLESCENT'S SATISFACTION. GO TO ADOLESCENT INTERVIEW.
